

28 May 1963

Dear Gene:

Before departing, [REDACTED] asked that I drop him a note bringing him up-to-date on several items of interest to him. I would appreciate it very much if you would give him the enclosed envelope at the first opportunity.

25X1A

Things are going along at the usual hectic pace back here and we see no evidence of any letup. From watching the traffic, I notice that you are quite busy too with your trips to various places throughout the area.

We are all looking forward to seeing you back here in the near future.

25X1A Sincerely,

[REDACTED]
